

MONOFILAMENT YARNS

SAKURA

SAKURA™ textured split yarn has a soft touch and excellent drape and a superior effect compared to the more Conventional monofilament Yarns .

SAKURA™ is one of the world's few evenly crimped fabrics made with technology developed by Tepar.

SAKURA™ has a shiny transparent look that naturally creates highly expressive shadows. Moreover, despite being extremely thin and light, it is hard to tear. This high added-value fabric combines a delicate graceful look with useful function.

Benefit:

- High Shrink
- Lightweight
- Waterless Dyed
- Naturel Soft feel
- Recyclable
- Sand Effect
- High Crimpy
- Good tensile strenght

Application:

- Tulle
