

Automotive Yarns

AUTOTEX

AUTOTEX

Tepar's Autotex Polyester yarns are a popular choice for automotive seat covers , door panels and head linings due to their durability, color fastness, and resistance to shrinking and stretching. They are also easy to clean and maintain, making them an ideal choice for high-traffic areas such as car interiors.

Tepar's Autotex Polyester yarns come in a variety of textures and finishes, allowing for customization and a wide range of design options. They are also available in DTY, ATY, FDY with colors, making it easy to find the perfect shade to match the car's interior.

In addition to being a practical choice, **Tepar's Autotex** polyester yarns are also an environmentally friendly option as they can be made from post consumer recycled materials. This makes them a sustainable choice for automotive manufacturers looking to reduce their environmental impact.

Tepar's Autotex polyester yarns offer a range of benefits for automotive seat covers and head linings, making them a popular choice for both manufacturers and consumers alike.

Benefit:
