# COOLMAX® PRO

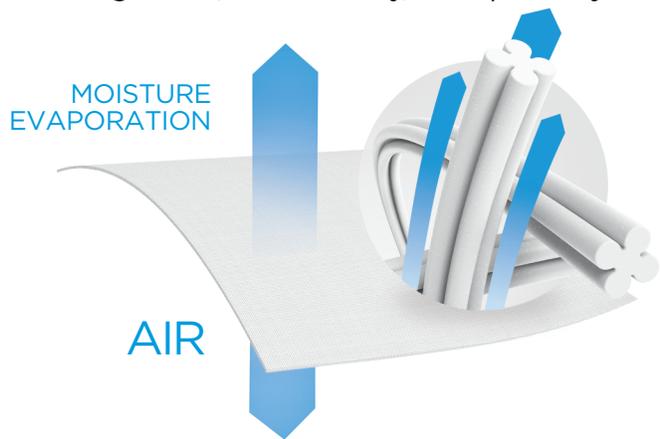

## AIR TECHNOLOGY

**COOLMAX®** brand technology solutions, backed by distinctive new consumer oriented branding, can be used across a broad product range covering most fabric applications. Fabrics made with COOLMAX® brand technology can be tailored to meet the end user's performance needs and are certified to ensure class-leading performance regardless of supply source.

## CHOOSE PRO

### FOR ADVANCED PERFORMANCE

Fabric made with COOLMAX® AIR technology uses propeller-shaped yarns to deliver the combined performance of superior moisture management, breathability, and quick dry time.

### BENEFITS

- Excellent moisture management and wicking performance
- Excellent air permeability
- Permanent performance, does not wash out
- Fabric certification processes help ensure consistent high performance regardless of supply source
- Easy-care
- Good fabric stability

### RECOMMENDED USES

- High impact activities such as running, biking and crossfit
- Military, law enforcement, protective and work wear

When you select COOLMAX® brand, you can be confident you are making the right choice. With nearly 30 years' experience keeping consumers cool and dry, our products offer outstanding quality, dependability, and performance. The COOLMAX® brand has a history of driving innovation and providing marketing and communications support throughout the value chain.
